

Attractive:
Embossed wood grain
anti-skid surface

High Performance:
Long life, low maintenance
means high return on investment

Most composite deck boards contain up to 50% wood fiber. It is this wood content that can absorb water, form mildew and lose its color. 100% vinyl VEKAdeck is not a composite. It contains no wood, it is impervious to liquids and guaranteed to hold its color.

Maintenance free:
Never needs painting or staining
and will not mold or mildew.
Cleans with mild soap and water

Durable:
Will not splinter, crack,
chip or peel.
Moisture resistant.

*... quite simply the best
deck board available*
