

Architectural Colors

are not inventoried at VEKA Inc. Longer leadtimes for Architectural colors apply.

White
#9294-95-083

Flemish Gold
#7103-95-083

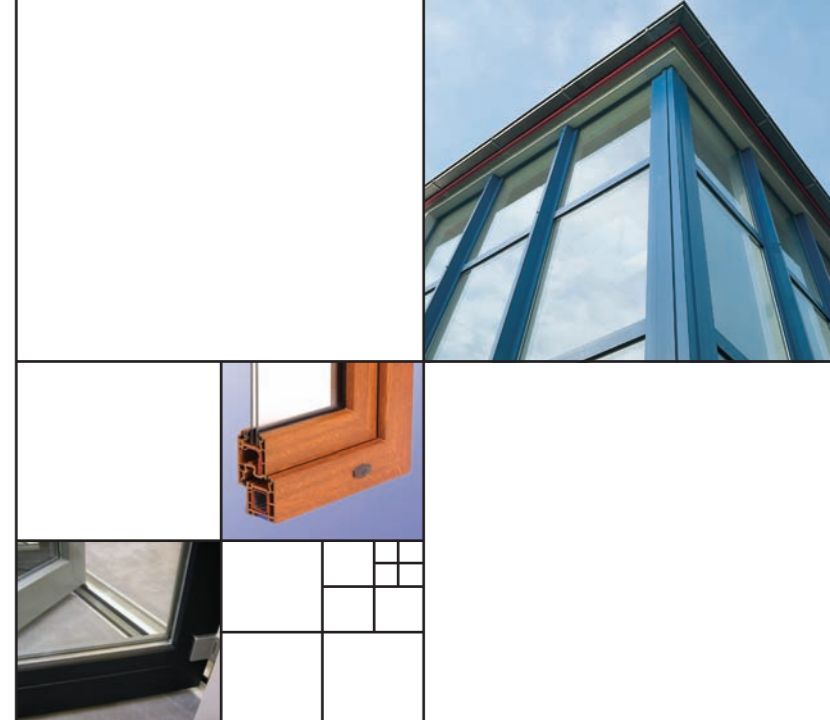

Ceylon Bronze
#7104-95-083

Diamond Gray
#7100-95-083

Architectural colors do not have a woodgrain structure (embossing pattern). Architectural colors have a flat/textured surface.

Ever wanted to add the beauty of real wood to your home without all the worry and sheer hard work you would expect from wood. Now modern foil technology means you can have all the beauty - and even the texture - of wood with all the convenience, long-life and low maintenance of PVC. Choose the woodgrain or color that best suits the character of your home or building, either to blend in with the style or even to make a statement in its own right, and then sit back and relax, just as with any other PVC product. You can choose to have one of our range of woodgrains or color on the outside and then brilliant white on the inside, or on the outside and inside, to complement both the interior and exterior of your home.

Colors and Woodgrains

more than good looks

a different view of woodgrains and colors

The wonder of woodgrain...

Now there's no need to turn your back on the lustrous look of wood when you choose the luxury of modern materials. State-of-the-art foil technology means the appearance and even the texture of beautiful natural woodgrains and colors can be made more lifelike than ever while the bonded surface complements all the well-known benefits of PVC.

It hardly needs to be said that our woodgrains are far less like wood in a few other ways in that they will not rot, warp, crack or need painting.

Choose from the classical and luxurious golden oak or the demure subtlety of mahogany. The versatility of this modern material even gives you the option to choose any woodgrain for the outside surfaces and brilliant white for the inside or choose a laminate for the the outside and the inside to accommodate the interior and exterior architecture of you home or building.

Please consult with your VEKA Representative our Customer Call Center for accurate leadtimes on any Woodgrain and color.

Standard Colors and Woodgrains are inventoried at VEKA Inc. Minimal leadtimes for standard woodgrains and standard colors apply.
